

Production time:

This campaign hat is personalized and custom made for each order.

It will take approximately 4-8 weeks for delivery. The factory is dealing with supply chain issues and will be shipping the hats as soon as they are produced. You will receive an email with the tracking number when your hat ships!

How to measure:

The fit of your hat is only as good as the measurement you supply us with - so take due care for accuracy. To determine your head size, get a cloth tape measure and put it around your head. Place it where you want your hat to rest. If you have a hat that fits well, put it on. Look and feel where it rests. Measure in that same spot (remove the hat first). Usually, that is just above the center of the forehead in front. Wrap the cloth tape gently around your head making certain the tape lies midway on your occipital bone (the upslope of the lump on the back of your head). Make sure the tape is tight - but not uncomfortable. Measure twice to be sure. If you don't have a tape measure, use a piece of string and then compare the string length against a ruler.

Do not try to determine your hat size by measuring the inside of your hat. This would result in your new Campaign hat being made too small.
